TROPICROP **AGRICULTURAL SERVICES** SDN BHD (199201002170) (233674-K)

COMPANY PROFILE

1.0 INTRODUCTION

The Tropicrop Group was incorporated in Malaysia in 1992 with the primary aim of providing efficient and comprehensive services to the plantation and agro-based industries as well as processing installations for plantation products. We are committed to ensuring sustainable and economically viable project management with emphasis on Corporate Social Responsibility and Environmental Conservation.

1.1 THE OBJECTIVE

Tropicrop is your dedicated partner to the successful establishment of your projects and is committed to ensure the continuous profitability and sustainability of your venture. This vision is made possible with the mission of providing innovative and practical technical services and support from our pool of experienced personnel of varied professional talents.

Clients would be able to draw technical expertise from our pool of professionals to form smart partnerships for practical and best agro-management practices for successful establishment of projects. Our primary objective is to enhance project performance with our commitment to ensure the continuous profitability on a long-term basis. Our proactive methodology is directed to focus on sustainable development in harmony with pertinent issues to implement current and long term strategies to realize set objectives within the framework of good corporate governance, social responsibility and environmental sustainability.

1.2 SERVICE PROVIDERS

- i) Tropicrop Agricultural Services Sdn Bhd (formally known as Sumber Saga Sdn Bhd, incepted on February 3, 1992) was established to provide a wide spectrum of Technical and Agro-Management services ranging from commencement of projects to the enhancement of project.
- ii) Subsequently, Tropicrop International Sdn Bhd was formed as an agency house to synergize with the investor by providing efficient and comprehensive management services to the projects.

With this inception, Tropicrop Group is in a position to offer comprehensive plantation agro-management as well as agro-forestry management services to agro-based industries in the Asia Pacific Regions.

The scope of services includes a broad category of the following: -

- **Pre-Development Studies and Assessment**
- **Development and Establishment of Plantations**
- **Management and Advisory Services**
- **Palm Oil Mill Engineering Services**
- **Agronomic Services**
- **Agro-forestry Management**
- **Sustainable Tropical Forest Management**
- **Rubber Factory Establishment**
- **Rubber Process Management and Consultancy**

3.0 CONSULTANTS RESUME

3.1 MANAGEMENT AND TECHNICAL TEAM

AREAS OF SPECIALIZATION

DR. K.L.WONG

Dr. Wong Kim Lian has over 30 years of experience in various agricultural sectors, including but not limited to Oil Palm, Agro – Forestry, Rubber, and Cocoa.

Dr. Wong was a former technical advisor to the Guthrie Group in Malaysia. He provided technical services on plantations to various groups in the South East Asian region. He also worked as an extension officer with the Dept. of Agricultural, Malaysia and the Dept. of Environment.

HARUN ABD AZIZ

Harun Abd Aziz has over 20 years of experience in the agricultural sectors.

He is currently the consultant Agronomist for Tropicrop computing all the fertilizer needs of various tree crops.

His involvement in conducting Feasibility Studies in Central and South America and the ASEAN region has provided him vast experience in plantation tree crops development.

He was a former Bio-technologist and agronomist in the Guthrie Group in Malaysia, giving him experience to bio-technology and agronomic practices to both fruit trees and plantation tree crops.

WONG WUEY WUEN

With 14 years of experience in Business Development, Marketing and Procurement in the consumer goods industry, Wuen brings a wealth of experience in Client Management, New Business Development and also Financial & Cash-flow analysis. His core skills are the preparation of Cash-flow Statements, P&L Projections, and Financial Management Analysis for our clientèle. Having also received training in Felda Plantations and also attending numerous plantation management seminars, he has positioned himself well within the Tropicrop Group to undertake Feasibility and Assessment studies, coupled with Business Development plans. He currently undertakes to make management visits to our client's oil palm estates primarily in Indonesia and Sabah. He's contribution enhances the many assignments of the Tropicrop Group.

ANTHONY CHUA

Prior to joining Tropicrop, he was the Regional Director for FELDA Southern Region involving jungle clearing, establishment of oil palm/rubber/cocoa and emplacement of settlers in this scheme. He was also the General Manager of Sungai Budi Group in Lampung, Indonesia. He has an over 30 years of experience working in various agricultural companies and agencies.

WONG WUEY CHUEN

Mr. Chuen started off as an Agronomist and later went into human resource and business development with several companies in different positions. Being exposed to various sectors of the business world, his experience gained would be a useful tool to enhancing would be investors in the plantation industry.

YAP CHING HOE, BRAINE

Having graduated with a first-class degree (B.Sc. Bio-Industry) in University Putra Malaysia under the full scholarship from Yayasan Sime Darby, he started his career in Sime Darby Research Sdn Bhd spending 6 over years in Oil Palm Research Unit conducting oil palm trials and agronomic visits. His areas of expertise include conducting nutritional trials, biomass studies, oil palm dissection, weather data/measurement correlation with palm growth and yield, soil correlations, nursery cullings, fertiliser recommendations and advisories. He later joined Genting Plantations Berhad reporting to the Plantation Head Malaysia carrying the portfolio of providing and coordinating operational training (e.g. contour lining training, fertiliser and weeding efficiency, Structured Supervisory Training Programmes (SSTP) and etc). He also played the role in analysing the Genting Plantations Malaysia's estate performance and costing and producing monthly, quarterly reports to the board of directors. All these experiences mould him to be a all-rounder in both technical and management skills

PREMKUMAR TAMILARASAN

B.Sc Biotechnology (UNISEL)

Area of Specialty:

- 12 years of experience in the oil palm industry as agronomist.
- Hands-on experience in various oil palm agronomy trials
- Conducted agronomic visit, advisory visit, feasibility study in Malaysia & Indonesia

Mr. Prem has 12 years of experience in the oil palm industry, focusing on agronomic trials related to nutrition, planting density, and pest management to improve agricultural practices. At Sime Darby, he planned and provided agronomic and fertilizer recommendations to estates and conducted agro-management training for estate personnel. While at Tropicrop, he delivered advisory visits and feasibility studies in Malaysia and Indonesia. He is fluent in English, Malay, and Tamil.

4.0 SCOPE OF SERVICES

An outline of the **Scope of Services** provided by Tropicrop is presented below:

4.1 PLANTATION SERVICES

Tropicrop has the experience and capability to provide the complete range of Plantation Services which include:

4.1.1 *PRE-DEVELOPMENT SERVICES*

-  Soil Sampling and Suitability Surveys of Project sites.
-  Plantation Development Planning.
-  Plantation Feasibility Study and Financial Analysis.
-  Preparation of Project Bankable Documents.

4.1.2 *DEVELOPMENT SERVICES*

-  Jungle Clearing, Terracing and Levelling, and Planting.
-  Sourcing and Ensuring the Purchasing of Quality Planting Materials.
-  Planning, Designing and Establishment of Pre- and Main Nursery.
-  Maintenance and Upkeep of Immature and Mature Oil Palm.
-  Formulation of Agriculture Policy catered to the needs of the Client.

4.1.3 *MANAGEMENT AND ADVISORY SERVICES*

-  Overall Plantation Management and Administration Services.
-  Plantation Advisory Services.
-  Agronomic Services - Fertilizer Recommendation and Plant Nutrition Management Programme.
-  Pest and Disease Control and Management.
-  Benchmarking and Agricultural Audits.

4.2 PROCESSING FACILITIES: Establishment & Management

4.2.1 PALM OIL MILL CONSULTANCY

In Synergy without associates, we provide

-  Project Feasibility Study
-  Project Design and Management, with our associates

4.2.2 RUBBER FACTORY CONSULTANCY

In Synergy with our associates, we provide

-  Project Feasibility Study and Project Management
-  Latex Concentrate & Crumb Rubber Design
-  Factory Management Consultancy
-  Process Improvement Studies and Personnel Training

4.3 OTHER SERVICES

-  Due diligence project and land assessment studies
-  Feasibility Studies
-  Suitability Studies
-  Agricultural and Field Audits
-  Preparation of development plans
-  Technical training for field staff

5.0 PROJECTS ACCOMPLISHED / ON-GOING

5.1 PLANTATION MANAGEMENT SERVICES

NO.	PLANTATION GROUP	HA / CROP / LOCATION
1.	SUNGAI BUDI GROUP	100,000 ha / oil palm, rubber and agro-forest / Lampung, Palembang, Jambi

9.	BUMI SURIA VENTURE	20,000 ha / oil palm plantation / Bintulu, Sarawak, Malaysia
10.	Absolute Ascend Sdn Bhd KUALA BERTIS ESTATE	1,713 ha / oil palm plantation / Gua Musang, Kelantan, Malaysia
11.	Absolute Ascend Sdn Bhd ARING ESTATE	4000 ha / oil palm plantation / Gua Musang, Kelantan, Malaysia

PT. SUNGAI BUDI GROUP LAMPUNG, INDONESIA

PT. Sungai Budi Group, founded in 1947 is one of the largest manufacturer and distributors of agricultural products in Indonesia. The company owns PT. Tunas Baru Lampung Tbk., and several public listed companies at Jakarta Stock Exchange.

Another member company listed at Jakarta Stock Exchange is PT. Budi Acid Jaya Tbk., the largest and most fully integrated tapioca starch manufacturer in Indonesia.

The company is well diversified and involves in many downstream activities namely production of cooking oil, stearine, cream soap, and laundry soap.

Besides oil palm and cassava, the company also cultivate sugarcane, rubber and pineapple and operates processing plants for sugarcane and pineapples.

The company working together with Tropicrop has realized significant growth and success with continuous improvement strategies.

Nursery establishment and management

Empty Fruit Bunch utilization in the sandy areas for soil enrichment

Good road construction and maintenance.

Mechanical fertilizer application.

Flood mitigation programme

RUBBER CULTIVATION

Establishment of rubber nursery

Immature rubber inter-cropped with pineapple.

RUBBER PROCESSING

Processing line under construction

Smoke-house under construction

KORINDO GROUP, INDONESIA

KORINDO GROUP is a Korean company established in Indonesia on September 10, 1969. It is a multi-diversified company with interest in Forestry Management, Oil Palm Plantation, Container Manufacturing, Sports Shoe Manufacturing, Trading, Financial Services, Property Development, Transportation, Chemical Production, Battery Production and Insurance Services.

The oil palm project was launched in June, 1998 with an allocated area of about 40,000 hectares. To date a total of 15,000 ha of the area has been developed.

Tropicrop's Consultant Team at KORINDO office in Irian Jaya.

Oil palm seedlings in small polybags.

Soil analysis at site to determine the suitability for oil palm cultivation

Big polybags ready to receive 3 month old seedlings.

TRAINING AND TECHNOLOGY TRANSFER

Plantation Training Course conducted at PT. Sungai Budi Group

Training on Fire Control in PT. Silva Inhutani Lampung, Indonesia.

Hands on training and fire fighting demonstration during the course.

Preparation of foliar samples for analysis.

OTHER CROPS

Pineapple inter-cropped
with rubber

Pineapple inter-cropped with
coconut.

Pineapple monocropping

Harvested pineapples
ready for processing

Acacia wood ready to be transported

5.2 AGRONOMIC CONSULTANCY SERVICES

NO.	PLANTATION / CLIENT	HA/ CROP / LOCATION
1.	Ladang Tawakal Sejati Sdn. Bhd.	4,482 ha / oil palm plantation / Bintulu Sarawak, Malaysia.
2.	Sarawak Pulp Industries Sdn. Bhd.	6,871 ha / oil palm plantation / Bintulu, Sarawak, Malaysia.
3.	PT Bakri Sumatera Plantations	10,000 ha / oil palm plantation / Kisaran, Pasaman & Jambi, Sumatera, Indonesia.
4.	PT Tunas Baru Lampung	5,154 ha / oil palm plantation / Lampung, Sumatera, Indonesia.
5.	PT Bumi Sentosa Abadi	962 ha / oil palm plantation / Lampung, Sumatera, Indonesia.
6.	PT Budi Dwiya Perkasa (A)	5,708 ha / oil palm plantation / Lampung, Sumatera, Indonesia.
7.	PT Budi Dwiya Perkasa (B)	2,110 ha / oil palm plantation / Lampung, Sumatera, Indonesia.

PT Tunas Baru Lampung Tbk. Berkomitmen Penuh terhadap RSPO

Jajaran direksi PT Tunas Baru Lampung, Tbk.

Presiden Direktur PT TBL, Tbk. Widarto memukul gong tanda dibukanya seminar sehari, kemarin.

PADA tanggal 16 Januari 2007, jajaran direksi PT Tunas Baru Lampung (TBL) melaksanakan seminar tentang Sosialisasi dan Penerapan RSPO (*Roundtable on Sustainable Palm Oil*) di lingkungan PT TBL, Tbk –anak perusahaan dari Sungai Budi Group—, di Hotel Four Season, Jakarta.

Hal tersebut sebagai bukti bahwa jajaran direksi PT TBL Tbk. berkomitmen penuh terhadap penerapan RSPO di lingkungan perusahaan. Komitmen tersebut kemudian diteruskan ke jajaran para manajer di Lampung dengan menggelar seminar sehari di Hotel Nusantara, Bandar Lampung, kemarin (17/1).

Seminar dihadiri sekitar 200 peserta, terdiri dari

manajer/asisten-asisten per-kebunan dan pabrik-pabrik di lingkungan PT TBL, Tbk. Dalam seminar, Perseroan mengundang pembicara dari *Malaysian Environmental Consultants* (MEC) Sdn. Bhd. yang juga dihadiri pimpinan dari PT Rabobank Indonesia Jakarta.

PT TBL merupakan satu-satunya perusahaan di Indonesia yang berkomitmen penuh untuk melakukan semua prinsip dan kriteria dalam RSPO. Ada 8 prinsip dan 39 kriteria dalam RSPO ini yang meliputi masalah sosial, lingkungan, kesehatan, dan keselamatan kerja.

"Seiring makin berkembangnya zaman dan besarnya penjualan ekspor Perseroan ke Eropa, maka Perseroan juga dituntut untuk membuka diri terhadap perkembangan zaman tersebut, guna, menghadapi persaingan yang makin ketat. Dalam menghadapi persaingan tersebut maka dituntut adanya suatu standar-standar tertentu guna memenuhi permintaan dari pasar dunia," ujar Presiden Direktur PT TBL Tbk. Widarto dalam sambutannya.

Standar tersebut, terus Widarto, akan selalu dicoba untuk disosialisasikan dan diterapkan di lingkungan Perseroan tanpa mengesampingkan masalah-masalah sosial, lingkungan, serta keselamatan dan kesehatan kerja yang akan terus menjadi perhatian perseroan. Hal ini menunjukkan bahwa PT TBL berkomitmen penuh terhadap RSPO dalam rangka ikut menunjang kelangsungan/keberlanjutan lingkungan hidup yang lestari. (adv)
